Art Unit: 1796

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Gallagher on 7/23/08.

The application has been amended as follows:

In claims 2 and 14, in the definition of silane (G), after "and/or a" but prior to "condensate of such a silanol" please insert "silanol containing".

This amendment emphasizes the point that (G), either as a silane or a condensate, must have at least one silanol group. Prior to this amendment, the silanol group in the condensate could have been reacted and eliminated during condensation.

2. The following is an examiner's statement of reasons for allowance: For reasons consistent with that given in applicants' response, the instant claims are neither taught nor suggested by the prior art. Applicants have amended (G) such that it excludes the methylethoxy polysiloxane taught on page 4 of the English language translation. In addition, (G) now requires at least one silanol group. It is the presence of such a group that contributes to the improved properties (see the Declaration dated 11/20/07 and remarks filed 5/13/08). Applicants have shown improved results that are unexpected when (G) contains a (preformed) silanol group. Such a silanol containing compound is neither taught nor adequately suggested by the prior art. In summary, the totality of each of the components required by the claims, combined with the results shown by applicants, are neither taught by nor obvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1796

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
